Building 532 ADA Renovations  
Bid #11072013-001  
Additional Questions

---

1. What kind of access will we have?

**ANSWER: Contractor will have access during regular business hours, and at other times, if necessary and approved by BDA.**

2. The plumbers will have to get between floors. Can this be done during regular business hours?

**ANSWER: Contractor and subcontractor personnel will be able to access the project area during regular business hours. Depending upon circumstances, there may be a requirement for contractor personnel to function at other times as approved by BDA.**

3. Are there as-builts available?

**ANSWER: Yes, there are some as-builts of the project area that can be made available.**

4. Can plumbers get into the ceilings to look at materials and distances?

**ANSWER: Yes, there are access panels that can be utilized.**

5. Appendix C-d. – What are these flooring repairs?

**ANSWER: Flooring repairs are due to wall or other Restroom renovations. Match adjoining floor type.**

6. With new doors, do we need new hardware or reuse existing?

**ANSWER: New Doors require associated hardware for Restrooms. Reuse existing hardware if possible and if resulting installation matches quality of other hardware.**
